

# FARM ROADWAY SAFETY

**Make sure to review the following before hitting the road with farm equipment.**

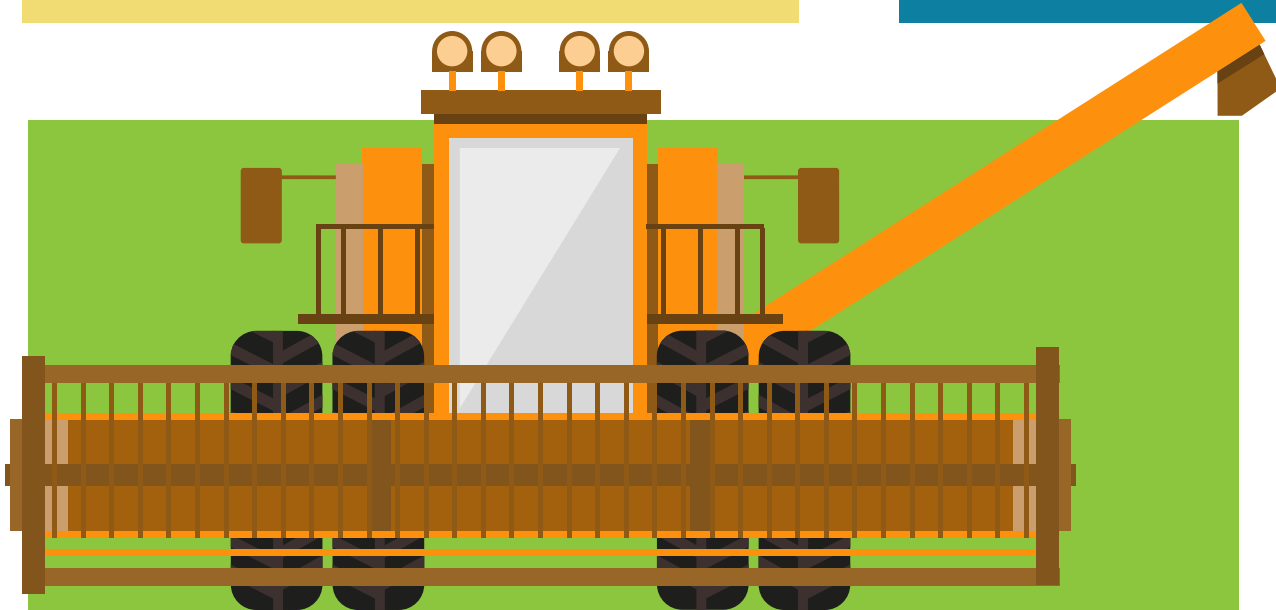

Verify all lights and flashers on your farm vehicle are working properly.

Confirm warning flashers, flags, lights, and slow-moving vehicle emblems are on equipment.

Apply reflective tape to improve visibility for motorists.

Check your farm vehicle's size and be mindful to avoid power lines, low bridges, and other overhead obstacles.

Make sure all towed equipment is balanced and securely mounted.
